- Internal supplier audits.

Our due diligence procedures aim to:

- Identify and action potential risks in our business and supply chains.
- Monitor potential risks in our business and supply chains
- Reduce the risk of slavery and human trafficking occurring in our business and supply chains.

Risk and compliance

The Company has evaluated the nature and extent of its exposure to the risk of slavery and human trafficking occurring in its UK supply chain through:

- Evaluating the slavery and human trafficking risks of each new supplier.
- Reviewing on a regular basis all aspects of the supply chain based on supply chain mapping.

We do not consider that we operate in a high-risk environment because our current supply chain is UK based and a low risk industry, supplying IT consultancy and services.

We do not tolerate slavery and human trafficking in our supply chains. Where there is evidence of failure to comply with our procedures by any of our suppliers, we will seek to terminate our relationship with that supplier immediately.

Effectiveness

The Company uses Key Performance Indicators (KPIs) to measure its effectiveness and ensure that slavery and human trafficking is not taking place in its business and supply chains. These KPIs are as follows:

- We will contact suppliers to enquire about their modern slavery practices every 12 months.
